### Equity & Title IX Department

The mission of the Office of Equity and Title IX (ETIX) is to foster a collaborative environment among the campus community furthering equity and facilitating diversity by assuring Missouri S&T's compliance with University of Missouri System policies and procedures, and state and federal statutes and regulation, in the area of Title IX, civil rights, and equal opportunity. Missouri S&T is committed to promoting a safe living and learning environment for everyone.

### Policies and Procedures

The Department of Equity and Title IX has been delegated the responsibility of ensuring compliance with University of Missouri policies and procedures related to equity and Title IX. Equity is equal employment and educational opportunities based on a protected class – race, color, national origin, ancestry, religion, sexual orientation, age, disability, protected veteran status, or any other status protected by applicable state or federal law. Title IX requires of the university to have an environment free from sexual harassment regarding the university's employment process, any phase of admission or financial aid, and all other aspects of its education programs or activities.

The U.S. Department of Education amended Title IX regulations in 2020. These changes resulted in the University of Missouri implementing updated policies effective August 14, 2020. For incidents which occurred prior to August 14, 2020, the previous policies and procedures apply.

The University of Missouri policies that guide the equity and Title IX processes are linked below and are available online at <a href="https://www.umsystem.edu/ums/rules/collected\_rules/equal\_employment\_educational\_opportunity">www.umsystem.edu/ums/rules/collected\_rules/equal\_employment\_educational\_opportunity</a>.

Policies and procedures for incidents that happened prior to August 14, 2020:

600.050 Equity Resolution Process for Resolving Complaints of Discrimination and Harassment against a Staff
Member or the University of Missouri - for matters involving conduct alleged to have occurred on or after
August 14, 2020

### **Process Overview**

The process for handling incidents is determined by whether the violation is based on equity policy or sexual harassment policy under Title IX.

### **Annual Report Overview**

For reporting purposes, an academic calendar of August 1 through July 31 is used.

This Annual Report is structured to include an overview of all reported incidents and resolutions during the academic year, followed by detailed data based on respondent type. For subsequent sections, where data is broken down by respondent's person type and there is more than one respondent for an incident, data fields, including but not limited to location, reporting date, and who submitted the report, will be counted for each person type.

### Summary Overview - Reports of discrimination and harassment

### Info 1. Number of reports submitted to Equity & Title IX

Table 1: Reports	
2020-2021	93
2021-2022	127

A report to Equity & Title IX is any information indicating that one or more person(s) may have violated policy. Upon receipt of a report, ETIX begins a preliminary inquiry, contacting the complainant, offering supportive measures, explaining how to file a complaint formally, and gathering information to make a

threshold decision if the report describes a possible violation.

A report may be made through an online form, in-person, by email, by mail, or on the phone.

#### Info 2. Person types involved in reports

Complainant is the term for an individual who allegedly has been subjected to discrimination or harassment in violation of the University's polices.

Respondent refers to a faculty member, staff, student, student organization, third party, or a University of Missouri entity such as a campus department or other institutional entity alleged to have violated the University's Anti-Discrimination Policies.

Table 2a: Person type by complainant and respondent		
Туре	Complainants	Respondents
Faculty	5 (3.6%)	9 (6.4%)
Staff	10 (7.2%)	28 (19.9%)
Student	103 (74.1%)	83 (58.9%)
Student Organization	0	9 (6.4%)
Third Party	16 (11.5%)	10 (7.1%)
University Entity	5 (3.6%)	2 (1.4%)
TOTAL	139	141

*Faculty* includes all regular and non-regular staff appointments as defined in <u>Sections 310.020</u> and <u>310.035</u> of the Collected Rules and Regulations.

Staff includes all administrative, service and support staff, which includes all regular employees, variable hour employees, non-regular employees, per diem employees, and subsidiary employees as defined in Section 320.050, subsections B and C of the Collected Rules and Regulations. Additionally, it includes when academic administrators are acting in their administrative, at-will role.

Student is a person having once been admitted to the University who has not completed a course of study and who intends to or does continue a course of study in or through one of the Universities of the University System. Student status continues whether or not the University's academic programs are in session.

Student organization is a recognized student organization which has received official recognition in accordance with <a href="Section 250.010">Section 250.010</a> of the Collected Rules and Regulations.

Third party refers to non-university affiliated individual or groups such as visitors, guests, contractors, or service providers.

*University entity* refers to the University of Missouri, one of the universities within the University of Missouri System, or one of its/their educational programs, departments, or other institutional entities where the alleged behavior is conducted by a person not acting as an individual actor but rather as a member of such groups.

There can be multiple complainants and respondents involved in a single incident or report. Each respondent is analyzed separately to determine whether policy has been violated.

Page 6 Summary Overview

To provide the most accurate analysis for data, we have further classified individuals whose identities were unnamed or anonymous (i.e., their names were unknown or not provided to ETIX), based on information available to us. Typically, even without an individual's name, there is sufficient information in an incident report to determine that they are most likely a student, staff, faculty member, third party, etc. Unconfirmed individuals were classified as noted below.

Table 2b: Unnamed party classification

### Info 3. Number of alleged violations

Table 3: Alleged Violations			
2020-2021 113			
2021-2022	202		

A report may include more than one allegation. This would explain why the number of allegations may exceed the number of reports received in any given reporting period.

### Info 4. Where reported incidents occurred

Only one category per report is included in this data, notating the primary location of each incident.

On campus generally includes properties owned and operated by the University of Missouri/Missouri S&T, in addition to properties owned or controlled by a student organization that is officially recognized by the University.

Table 4: Location of incidents		
Location	2021-2022	2020-2021

Off Campus	30 (23.6%)	18 (19.4%)
Electronic	11 (8.7%)	17 (18.3%)
Undisclosed	4 (3.1%)	1 (1.1%)
TOTAL	127	93

Off campus is for locations not categorized as on campus.

*Electronic* references when an incident takes place in a non-physical location and through an electronic means such as email or social media platforms.

Undisclosed means we were unable to further specify, which may happen when a complainant does not

respond to ETIX outreach and the location was not included in the initial report, or if a complainant chooses not to disclose that information.

### Info 5. Person type of reporter

This table shows the type of person who submitted a report. Reports may be made by anyone, which may include the complainant.

### Info 6. Report frequency by month

All reports submitted to ETIX from August 1 through July 31 are counted in this Annual Report. These numbers are based on the date of the report received, *not* the date of the alleged incident. Thus, not every incident included in this Annual Report occurred during the academic year indicated, and not every incident occurred while the parties were associated with the University.

Some incident dates were estimated in cases where limited information was provided by the parties.

### Info 7. Allegations reported

A report may include more than one allegation. Table 7 represents the types and volume of allegations reported for the reporting period. These numbers represent accusations/allegations, not ultimate findings of responsibility.

Unclassified includes reports that contain insufficient details to further classify the alleged behavior, often because a third party who reported to ETIX did not provide that level of information initially and/or because the complainant chose not to disclose further details.

The chart is divided to show allegations regarding incidents which happened prior to and after the policy changes that were effective on August 14, 2020.

#### Info 8. Interventive actions

Supportive measures are non-disciplinary, non-punitive, individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or respondent before or after the filing of a complaint. These measures are designed to restore or preserve equal access to university's education programs, activities, or employment without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the university's education environment or deter discrimination and harassment.

Emergency removal is the removal of a student respondent from the university's education program or activity on an emergency basis, if after conducting an individualized safety and risk analysis, there is a determination that an immediate threat to the physical health or safety of any student, or other individual arising from the allegations of discrimination or harassment justifies the removal.

Interim suspension of a student organization is the suspension of a recognized student organization who is a respondent on an interim basis, including its operations, university recognition, access to and use of campus facilities and services for which it might otherwise be eligible, pending the completion of the equity process when it is believed that the presence of the organization on campus would seriously disrupt the University or constitute a danger to the health, safety, or welfare of the members of the university community.

Administrative leave is the leave of a university employee in accordance with the University Human Resource policies.

### Info 9. Respondent case resolution

Once a report is submitted, ETIX begins a preliminary inquiry to determine if any policies may have been violated. At the end of the preliminary inquiry a determination is made whether to move forward with a full investigation or to close the case.

ETIX begins processing a report following equity resolution processes as defined by the Collected Rules and Regulations of the University of Missouri.

In order to move forward with a formal investigation, a complaint stating the allegations must be filed by the complainant, Equity Officer, or Title IX Coordinator. The respondent is notified of the allegations and an investigation is launched. Cases may be resolved either by formal resolution or informal resolution. The formal and informal resolution options vary depending on the resolution process required by policy. For more information about the process and resolution options, please refer to the Equity Process Guide and Title IX Process Guide.

For matters that occurred prior to August 14, 2020, the equity resolution process was determined based on the respondent's affiliation with the University during the incident. Equity resolution processes were determined based upon whether the respondent was a student, student organization, faculty, staff, or an entity of the University.

For matters on or after August 14, 2020, the equity resolution process was based on whether there was a violation for sexual harassment under Title IX (600.020) or if it involved equal opportunity concerns based upon a protected class (600.010).

Below are the resolution options for incidents which occurred prior to August 14, 2020:

Table 9: Respondent case resolution	Total 141 Respondents

NOTE – For respondents with more than one allegation where the allegations fall into more than one incident period and/or violation type, the case will be counted in each violation type/period.

- Referral to other process If a violation does not
  meet the criteria for a violation under a policy related to discrimination or harassment as defined by
  Sections 600.010 or 600.020 of the Collected Rules and Regulations, but may be a violation of
  another university or campus policy, the incident may be referred the appropriate department, such
  as Human Resources or Student Support and Community Standards.
- **Does not describe a policy violation** At the end of the preliminary inquiry if it is determined that even if what is reported were true, there would be no policy violation. This includes incidents which fall outside of the University's jurisdiction.
- **Summary resolution** If the Equity Officer or Title IX Coordinator determines that there is insufficient basis to proceed with the Complaint, then the process will end.
- **Conflict resolution** A voluntary process using alternative dispute resolution mechanisms such as mediation or facilitated dialogue. If successful, the investigation process ends with no findings

Page 11 Summary Overview

- issued. Conflict resolution includes voluntary permanent separation where the respondent voluntarily agrees to permanently withdraw from the University System.
- Administrative Resolution The resolution of a complaint by making a finding on allegations and sanctions without a hearing, typically by a single decision maker.
- **Hearing Panel Resolution** The decision of whether a violation has occurred and findings on sanctions is made by a panel of three decision makers.
- Request to not pursue An impacted party may request that the matter not be investigated. This
  resolution option is available only for sex discrimination, sexual harassment, and sexual
  misconduct.

For incidents that occur on or after August 14, 2020, the following resolution options are available.

Reports of sexual harassment under Title IX (600.020) may be resolved as follows:

- Formal complaint not filed –In cases where a formal complaint is not filed, the process ends. A
  formal complaint may not be filed for a variety of reasons, including:
  - Could not purse, insufficient information to act Sometimes ETIX is not able to gather
    sufficient information to determine if a policy was violated. An example is when a report is
    submitted anonymously but does not contain detailed information.
  - **Reluctant complainant/Request not to pursue** If the impacted party chooses not to participate in the process, a formal complaint has not been filed, or the party requests the matter not be investigated, the resolution process is concluded.

#### Dismissal -

- During or upon completion of the investigation, the Title IX Coordinator will review the Formal Complaint and the investigative report, if available, to determine if the Formal Complaint is subject to dismissal.
  - Dismissal Does not constitute sexual harassment under CRR 600.020.
  - Dismissal Did not occur in the University's education program or activity.
  - Dismissal The conduct did not occur against a person in the United States.
- A Formal Complaint may also be dismissed at any time during the investigation or hearing in the following circumstances:
  - Dismissal Complainant withdrew formal complaint.
  - Dismissal Respondent is no longer with the university.
  - Dismissal Circumstances prevent the University from gathering evidence sufficient to reach a determination.
- Informal Resolution A voluntary process using alternative dispute resolution mechanisms. If successful, the investigation process ends with no findings issued. Informal resolution is never available to resolve allegations that an employee sexually harassed a student. Informal resolution includes:
  - **Mediation/Facilitated dialogue** A neutral facilitator will foster a dialogue with the Parties to an effective resolution.
  - **Voluntary permanent separation** The respondent voluntarily agrees to permanently withdraw from the University of Missouri System.
  - **Administrative resolution** If all parties choose administrative resolution, the resolution will be determined by a single decision maker.
- **Hearing Panel Resolution** The decision of whether a violation has occurred and findings on sanctions and remedial actions are made by a panel of three decision makers.

Page 12 Summary Overview

Reports of discrimination and/or harassment based on a protected class under equity (600.010) may be resolved as follows:

#### • No complaint filed -

- Could not purse, insufficient information to act Sometimes ETIX is not able to gather sufficient information to determine if a policy was violated. An example is when a report is submitted anonymously but does not contain detailed information.
- Conclusion of preliminary inquiry, no policy violation –At the end of the preliminary inquiry, the Equity Officer determines that based upon the information gathered, the report does not describe a violation of the University's Anti-Discrimination policies.
- Referral to other process If a violation does not meet the criteria for a violation under a policy
  related to discrimination or harassment as defined by Sections 600.010 of the Collected Rules and
  Regulations but may be a violation of another university or campus policy, the incident may be
  referred to the appropriate department, such as Human Resources or Student Support and
  Community Standards.
- Out of jurisdiction Out of jurisdiction is determined when matters that occurred are beyond the University of Missouri premises, not at university sponsored or at university supervised functions, or for matters that occurred in other settings including off campus but and for which the behavior reported did not have a nexus to the university's educational programs, activities, or employment.
- **Summary resolution** Resolution of the Complaint upon a determination by the Equity Officer that there is an insufficient basis to proceed with the Complaint based upon the evidence gathered through investigation that the Respondent violated the University's Anti-Discrimination Policies.
- Conflict resolution A voluntary process using alternative dispute resolution mechanisms. If successful, the investigation process ends with no findings issued. Conflict resolution is never available to resolve allegations that an employee sexually harassed or engaged in sexual misconduct with a student. Conflict resolution includes:
  - **Mediation/Facilitated dialogue** A neutral facilitator will foster a dialogue with the Parties to an effective resolution.
  - **Voluntary permanent separation** The respondent voluntarily agrees to permanently withdraw from the University of Missouri System.
- **Administrative Resolution** The resolution of a complaint by making a finding on allegations and sanctions without a hearing, typically by a single decision maker.
- **Hearing Panel Resolution** The decision of whether a violation has occurred and findings on sanctions and remedial actions are made by a panel of three decision makers.
- Decision not yet rendered A decision has not yet been made and the process is ongoing.

Page 13 Summary Overview

### Info 10. Responsibility

The equity and Title IX resolution processes are university processes and not criminal processes. Respondents determined to have violated policy are found *responsible*. A determination of responsible or not responsible is found in cases that are resolved through administrative resolution and hearing panel resolution.

Table 10a: Respondents found responsible		
Respondent	# Cases Where a Decision Was Made	# Respondents Found Responsible
Student	3	0
Faculty	3	1
Staff	3	1
Student Org	6	3
Total	15	5

In Table 10, the respondent was found responsible for at least one violation of policy in the matter resolved.

# One respondent requested an appeal. Findings were upheld in that case.

Note: Both complainant and respondent have the right to appeal decisions regarding administrative resolution or hearing panel resolution findings.

Table 10b lists the sanctions imposed when a respondent was found responsible. Often, respondents receive more than one sanction at a time, thus there may be more sanctions listed than respondents found responsible.

### Info 11. Student respondents

The number of cases reflects where one or more respondent is a student. In some cases where there is more than one respondent, the case will be counted for each respondent type. For example, if a case has two respondents and one is a student and the other is a third party, the case will be counted in both sections for student and third parties.

# **Third Party Respondents**

Third party refers to non-university affiliated individual or groups such as visitors, guests, contractor, or service provider.

When a respondent is a third party, the ability of the University to investigate, determine responsibility, and issue sanctions is limited because the University has limited to no jurisdiction over the third party. When appropriate and if the identity of the third party is known, a third party may be trespassed from university property.
